Vesting Tentative Maps are processed in the same manner as regular tentative maps with the exception that all discretionary approvals required prior to issuance of the construction permits must be obtained prior to action of the tentative map. Vesting maps must comply with City requirements and Subdivision Map Act requirements. A Vesting Map protects the right to develop and obtain building permit(s) even if land use regulations change between the time when map approvals are obtained and building permit(s) are issued.

The tentative map shall be accompanied by the following data and reports:
