

EXPERIENCE ANOTHER SIDE OF OROVILLE

Today, Oroville is well known for its water recreation. Its history began in the Gold Rush Days when the town was established as a supply depot for miners working gold claims on the Feather River.

What better way to celebrate Oroville's rich heritage than by taking a stroll through the Historic Museum District.

Your cell phone is your ticket to listen to the story of the house that olives built, the love story of Jesse and Cornelia Lou or the history of the Chinese Temple. The choice is yours!
Dial 530-539-3004 and press the number for the stop you are visiting. We hope you enjoy your excursion into Oroville's history!
